Kata Kunci –*Jam; Poster; Media Pembelajaran*

I. PRODUCT DESCRIPTION

Posters are frequently used to share data and are an essential piece of numerous meetings, workshops and shows. They might be utilized to exhibit very comprehensive material, thus it is imperative that the data on them is well spread out, intelligible and appealingly exhibited[1]. Posters are a collection of visuals displayed as notifications, warnings or incentives which usually contain several images [2]. The poster is an assembly from several images that produce visual elements that can attract people's attention and convey a short message[3]. Using poster media containing familiar objects in the form of pictures and familiar activities to obtain words, and using inquiry-oriented strategies [4]. The poster media containing this collection of images contains a lot of vocabulary and it is hoped that students will acquire new vocabulary [5]. Teachers can use poster media which is an appropriate learning model for transferring knowledge to students. Luth Badila's time man is one of the posters that can be used to make the learning process more interesting.

II. PRODUCT CONTENT

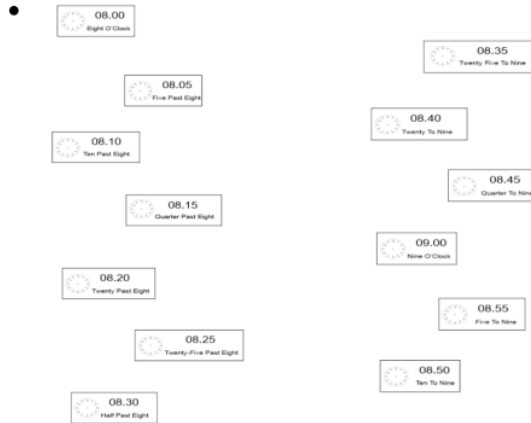

Several unique displays produced in this big book such as on the poster using a combination of Pop-up in clock as to produce a raised picture, then the use of flashy colors, and on the top of the poster gives an interesting impression by decorating the clock and gear. On the right and left side include subject matter that can be used for teacher to explain to student, before the main attractive clock is used. In the center of the posters, include a robot whose head can rotate 360° that contains a clock. In the top left of the posters contain a quiz that is used to ask the student.

The explanation of the materials used during the Luth Badila's Learning Time Posters making process is as follows:

1. The content part of the material uses the combination of the cardboard, manila paper and paperboard.
2. The making of Luth Badila's Learning Time is done by hand. The picture is attached to the paperboard is the result using hvs paper that is stuck to the buffalo with flashy colors to attract student attention.
3. As finishing, decorated with gear and several other things and given iron on the top and bottom so it is sturdier.

III. USE INSTRUCTIONS PRODUCT

1. Teacher explain the content of learning media :

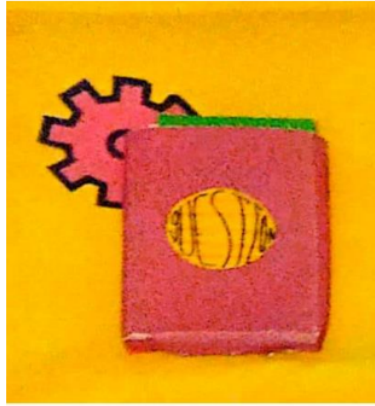

Picture 1. Display Learning Materials

The teacher explains the learning material in the picture above, such as 08.00 is 8 o'clock, 08.05 is five past eight, etc

Picture 2. Display Rotateable Clock

Use for student to rotate the clockwise to answer the quiz

Picture 3. Display Quiz Card

Use for student to take the quiz about the time in english

2. Teacher Explain About The Time In English

3. Teacher calling 5 student to come forward and then queue neatly to answer the quiz that include in media one by one.

4. Students take the quiz from box then answer the question by rotating clockwise based on the question.

5. Student have 10 seconds to answer the questions by rotating clockwise in head of robot.

6. If the student in front of queue cannot answer the question, the other student behind him come forward and the student that cannot answer the question goes to back and so on.

7. In case one group has finished, they are given the opportunity to answer and there are questions that are not answered, then the other groups will come forward to answer and so on.
