Pengaruh Kemandirian Belajar  
Terhadap Performansi Akademik

**Abstract:** Learning efficiency in schools is an important issue in realizing the school's vision and mission in relation to students and subjects. Schools have the expectation that education can be efficient and effective for all students with learning independence. This study aims to empirically determine the influence of learning independence on academic performance of high grade students of SD Negeri Anggaswangi 1. The approach in this research is a quantitative approach. The subjects of this study were students of SD Negeri Anggaswangi 1 (N=103). saturated sampling was used in the study. The research data were analyzed using regression analysis techniques using JASP version 0.17. The results show that the hypothesis is accepted, namely learning independence has a significant effect on academic performance. This result shows that learning independence has a positive effect on the academic performance of high grade students of SD Negeri Anggaswangi 1.
